

24 January 1952

MEMORANDUM TO: Assistant Deputy (Inspection and Security)

For your records, I wish to confirm that General Smith has approved the understanding you and I reached with respect to the uncleared pool of new employees; namely-

1. That you will have the pool managers briefed so that they may talk intelligibly to candidates who are not cleared but released for security reasons and to candidates who raise questions as to why they do not get per diem and travel allowance when others do.
2. That such security instruction as can be given on the pool premises will be permitted and the pool managers will be given a formal manual which they can use for this purpose.

Stuart Hedden  
Inspector General
